

# NSTU Bicycle rental System testing Report

**Course Title: Software Testing and Quality Assurance Lab**

**Course Code: SE3210**

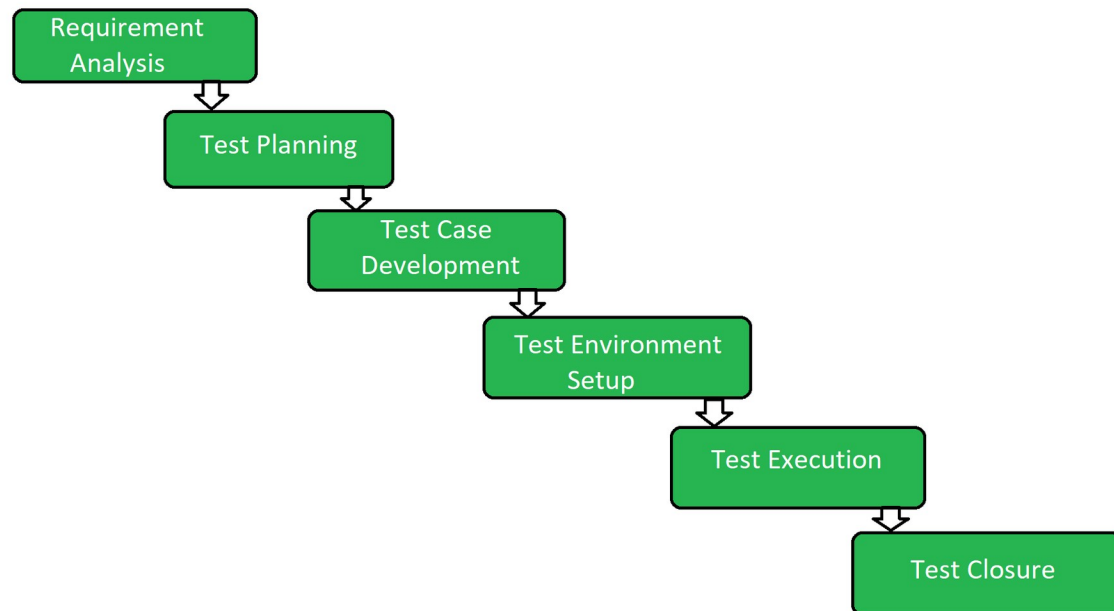

Submitted to  
Tasniya Ahmed  
Lecturer of IIT  
NSTU

Submitted by  
Name : MD Mynuddin  
ID: ASH1825007M  
Name : Kamruzzaman Shekh  
ID: ASH1825035M  
NSTU,IIT

**Date : 20 February 2020**

## Software Testing Life Cycle (STLC)

The **Software Testing Life Cycle** (STLC) is a sequence of specific actions performed during the testing process to ensure that the software quality objectives are met.

We build complete STLC for our project. Our project is NSTU-Bicycle Rental System. The project link-

<https://github.com/kamruzzamanshekh/NSTU-Bike-Rental-System>

### Requirement Analysis

We use a Priority based requirement for Requirement analysis. There are two types requirements are functional and non-functional requirements.

## Functional Requirements

<b>FR - 01</b>	<b>Create Account</b>
<b>Description</b>	If anyone want to get our service, he/she first need to create account.
<b>Priority</b>	High

<b>FR - 02</b>	<b>Log In</b>
<b>Description</b>	If rider want to rent the bicycle , first they need to login the system using their user id and password
<b>Priority</b>	High

<b>FR - 03</b>	<b>Bicycle List</b>
<b>Description</b>	Rider can see the Bicycle list and they can rent the bicycle according their choice. Their are different category bicycle and their rent price also be different (tk / hour)
<b>Priority</b>	Medium

<b>FR - 04</b>	<b>Booking Bicycle</b>
<b>Description</b>	Registered user can booking the bicycle by providing their information like Name , Phone Number , Date and Time.
<b>Priority</b>	Medium

<b>FR - 05</b>	<b>QR Scanner</b>
<b>Description</b>	Every bicycle have a QR code scanner. When a rider scan the QR scanner code , bicycle lock automatically open(Condition apply).
<b>Priority</b>	High

<b>FR - 06</b>	<b>Third party software application integration for payment (bkash)</b>
<b>Description</b>	When a rider rent a bicycle , they scan the QR code and payment will be done automatically and cycle will be unlock.
<b>Priority</b>	High

<b>FR - 07</b>	<b>Tacking System</b>
<b>Description</b>	GPS tracking system are implemented . So admin can track the bicycle for their bicycle security purpose.
<b>Priority</b>	

<b>FR - 09</b>	<b>Zone view</b>
<b>Description</b>	Rider can ride the bicycle in specific area.
<b>Priority</b>	Low

## Non-Functional Requirements

<b>NFR - 01</b>	<b>Security</b>
<b>Description</b>	NSTU-Bicycle Rental system must be implemented GPS system to track the bicycle for the security purpose.
<b>Priority</b>	High

<b>NFR - 02</b>	<b>Performance</b>
<b>Description</b>	Rider use this system easily and system must be optimized for searching and finding relevant bicycle.
<b>Priority</b>	High

<b>NFR - 03</b>	<b>Scalability</b>
<b>Description</b>	System must be able to adding unlimited rider at a time and handle everything within short times.
<b>Priority</b>	High

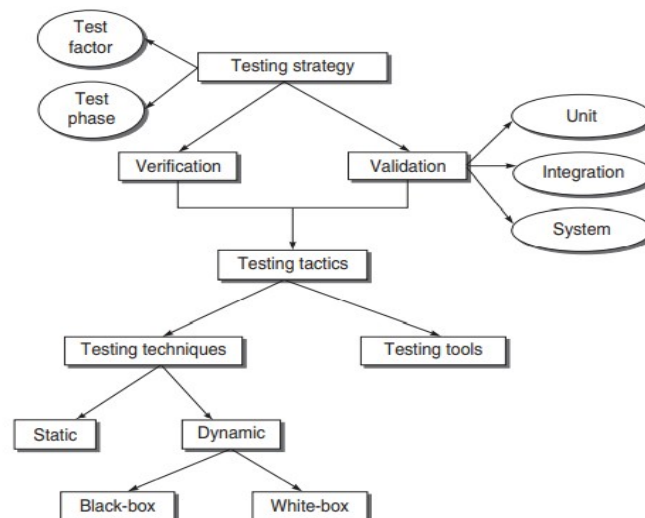

<b>NFR - 04</b>	<b>Maintainability</b>
<b>Description</b>	System must be developed maintainable way for maintaining easily after release.
<b>Priority</b>	High

<b>NFR - 05</b>	<b>Extensibility</b>
<b>Description</b>	After release this system, It might be extensible for new feature .
<b>Priority</b>	High

## Test Planning

A test plan is a detailed document which describes software testing areas and activities. It outlines the test strategy, objectives, test schedule, required resources (human resources, software, and hardware), test estimation and test deliverables.

## Test strategy

## Testing Approach For NSTU-Bicycle Rental System

- Functional Testing
- Usability Testing
- Security Testing
- Performance Testing
- Database Testing

## Roles and responsibilities

Roles	Responsibilities	Tester
Test Manager	Manage the whole project, acquire appropriate resources and control team members.	Kamruzzaman && Mynuddin
Test Analyst	Identify test conditions and features.	
Software Development Engineer in Test	Develop tools for testing.	
Software Test Engineer	Test the overall system using appropriate testing approach and instruments	
Test Architect	Design various suitable testing models	
SQA team	Check to confirm whether the testing process is meeting specified requirements	
Developer in Test	Implement the test cases, test program, test suite etc.	

## Identifying the testing techniques and testing types

Testing Techniques	Testing Type	Perform on
Dynamic Testing	Boundary Value Analysis	

<b>(Black Box)</b>	Equivalence Class Partitioning	Functional requirements, code
	Cause-effect Graph	
<b>Dynamic Testing (White Box)</b>	Logic Coverage Criteria	Structure,deign , code
	Basic Path Testing	
	Control Flow Graph	
	Graph Matrix	
	Connection Matrix	
<b>Static Testing</b>	Inspection	Whole system without execute code
<b>Validation Testing</b>	Unit Testing	Code Module
	Integration Testing	Merged code
	Function Testing	Functional design
	System Testing	SRS
	Acceptance Testing	Conformance to gathered requirements
	Installing Testing	Adaptability with operating machine
<b>Regression Testing</b>	Test Prioritization	Testing requirements

## Test Case Development

### Functional Test Cases

ID	Test case	Verification	Test Data
TC01	Check User registration with valid email	Valid	Name:kamruzzaman Email: shekhnstuiit@gmail.com Phone: 01647508443 password: shekh
TC02	Check user registration with invalid email	Invalid	Name:mynuddin Email: mynu420@gmail.com Phone: 65545 password: 12345
TC03	Check user login with valid data	Valid	Username = shekh Password = shekh
TC04	Check user login with invalid data	Invalid	Username = mynuddin Password = mynuNSTU
TC05	Test to find out a specific bicycle using valid cycle name	Valid	Value:VILOCE LEGION 50 BLACK-RED
TC06	Test to find out a specific bicycle using Invalid cycle name	Invalid	Value: Roman C 560 cycle
TC07	Click on View Details for show a bicycle details	Valid	
TC08	Click on Book button for booking a cycle	Valid	
TC09	Test information before book confirm a bicycle	Valid	Name: kamruzzaman Phone: 01647508443 Email: shekhnstuiit@gmail.com Date:03/10/2021 Hours:5
TC10	Test with wrong information before book confirm a bicycle	Invalid	Name: kamruzzaman Phone: 01647508443 Email: shekhnstuiit@gmail.com Date:03/10/2020 Hours:50
TC11	Check valid information for payment(Scan QR Code)	Valid	
TC12	Check Invalid information for payment(Scan QR Code)	Invalid	
TC13	Check users can add book in Booking List	Valid	
TC14	Check Every booked Bicycle show in booking list	Valid	
TC15	Click on Cancel Button for cancel a book from the booking page's list	Valid	
TC16	Test sing out when click on logout button	Valid	

### Non-functional Test Cases

ID	Test case	Verification	Test Data
TC17	Check it takes the expected time for a user to log in with the correct credentials.	Valid	Username= mynudddin Password= mynu1234
TC18	Check page loading speed is acceptable.	Valid	
TC19	Check an application should be available at different battery conditions, including charging.	Valid	
TC20	Check a user should be able to log in from different devices simultaneously.	Valid	Username= shekh Password=shekh
TC21	Check the information from different devices should synchronize momentarily.	Valid	
TC22	Check the application should not cause device heating or battery draining.	Valid	

### Test Environment Setup

#### Hardware (Desktop / Laptop)

- ✓ RAM : 200 MB or more
- ✓ Hard drive : 512MB or above
- ✓ Processor : 1.80 GHz or above

#### Software

- ✓ Operating System : All
- ✓ Browser : Anything's versions
- ✓ Code editor : Visual Studio Code

We installed OS - window 10 Home, 4GB RAM and 1TB hard-disk, processor - Intel(R) Core(TM) i3-3110M CPU @ 2.40GHz, chrome browser and Visual studio code as editor.

## Test Execution

### Functional test case execution

ID	Test Scenario	Test Steps	Test Data	Expected Results	Actual Results	Pass/Fail
TC01	Check User registration with valid email	<ol style="list-style-type: none"> <li>Go to site <a href="http://localhost/NSTU-Bike-Rental-System/register.php">http://localhost/NSTU-Bike-Rental-System/register.php</a></li> <li>Click registration button</li> <li>Enter valid name,email,phone and password</li> <li>Click REGISTER</li> </ol>	Name: kamruzzaman  Email: shekhnstuiit@gmail.com  Phone: 01647508443 password: shekh	Rider should Registration into system.	As Expected	Pass
TC02	Check user registration with invalid email	<ol style="list-style-type: none"> <li>Go to site <a href="http://localhost/NSTU-Bike-Rental-System/register.php">http://localhost/NSTU-Bike-Rental-System/register.php</a></li> <li>Click registration button</li> <li>Enter invalid name,email,phone and password</li> <li>Click REGISTER</li> </ol>	Name: mynuddin  Email: mynu420@gmail.com  Phone: 01792457854 password: 12345	Rider should not Registration into an application.	As Expected	Fail
TC03	Check user login with valid data	<ol style="list-style-type: none"> <li>Go to site <a href="http://localhost/NSTU-Bike-Rental-System/login.php">http://localhost/NSTU-Bike-Rental-System/login.php</a></li> <li>Enter Username</li> <li>Enter Password</li> <li>Click Login</li> </ol>	Username = shekh Password = shekh	Rider should Login into system.	As Expected	Pass
TC04	Check user login with invalid data	<ol style="list-style-type: none"> <li>Go to site <a href="http://localhost/NSTU-Bike-Rental-System/login.php">http://localhost/NSTU-Bike-Rental-System/login.php</a></li> <li>Enter Username</li> <li>Enter Password</li> <li>Click Login</li> </ol>	Username = mynuddin Password = mynuNSTU	User should not Login into an application.	As Expected	Pass
TC05	Test to find out a specific bicycle using valid cycle name	<ol style="list-style-type: none"> <li>Go to site <a href="http://localhost/NSTU-Bike-Rental-System/search.php">http://localhost/NSTU-Bike-Rental-System/search.php</a></li> <li>Input a name of bicycles</li> <li>Click on search button</li> </ol>	Value:VILOCE LEGION 50 BLACK-RED	Rider see the list of bicycle based on search input.	As Expected	Pass
TC06	Test to find out a specific bicycle using Invalid cycle name	<ol style="list-style-type: none"> <li>Go to site <a href="http://localhost/NSTU-Bike-Rental-System/search.php">http://localhost/NSTU-Bike-Rental-System/search.php</a></li> <li>Input a name of bicycle</li> <li>Click on search button</li> </ol>	Value: Roman C 560 cycle	Rider see the the message "Result Not found"	As Expected	Fail

TC07	Click on View Details for show a bicycle details	<ol style="list-style-type: none"> <li>1. Go to site <a href="http://localhost/NSTU-Bike-Rental-System/index.php">http://localhost/NSTU-Bike-Rental-System/index.php</a></li> <li>2. Click on book button</li> </ol>		Rider should go to Details page	As Expected	Pass
TC08	Click on Book button for booking a cycle	<ol style="list-style-type: none"> <li>1. Go to site <a href="http://localhost/NSTU-Bike-Rental-System/view.php?id=7">http://localhost/NSTU-Bike-Rental-System/view.php?id=7</a></li> <li>2. click on book button</li> </ol>		Rider able to booking and going to booking page	As Expected	Pass
TC09	Test information before book confirm a bicycle	<ol style="list-style-type: none"> <li>1. Go to site <a href="http://localhost/NSTU-Bike-Rental-System/book.php?id=7&amp;price=15">http://localhost/NSTU-Bike-Rental-System/book.php?id=7&amp;price=15</a></li> <li>2. Provide every Information</li> </ol>	Name: kamruzzaman Phone: 01647508443 Email: shekhnstuiit@gmail.com Date:03/10/2021 Hours:5	Every information show accurate	As Expected	Pass
TC10	Test with wrong information before book confirm a bicycle	<ol style="list-style-type: none"> <li>1. Go to <a href="http://localhost/NSTU-Bike-Rental-System/book.php?id=7&amp;price=15">http://localhost/NSTU-Bike-Rental-System/book.php?id=7&amp;price=15</a></li> <li>2. Provide every Information</li> </ol>	Name: kamruzzaman Phone: 01647508443 Email: shekhnstuiit@gmail.com Date:03/10/2020 Hours:50	Every information not show accurate	Not Expected	Fail
TC11	Check valid QR scanner	<ol style="list-style-type: none"> <li>1. <a href="http://localhost/NSTU-Bike-Rental-System/payment.php">http://localhost/NSTU-Bike-Rental-System/payment.php</a></li> <li>2. Scan the booking bicycle</li> </ol>		Success full payment notification and unlock the bicycle	Not Expected	Fail
TC12	Check Invalid information for payment	<ol style="list-style-type: none"> <li>1. <a href="http://localhost/NSTU-Bike-Rental-System/payment.php">http://localhost/NSTU-Bike-Rental-System/payment.php</a></li> <li>2. Scan the booking bicycle</li> </ol>		Rider get a alert notification for provide wrong information	Not Expected	Fail
TC13	Check users can add book in Booking List	<ol style="list-style-type: none"> <li>1. <a href="http://localhost/NSTU-Bike-Rental-System/bk.php">http://localhost/NSTU-Bike-Rental-System/bk.php</a></li> <li>2. Rider see the bicycle in booking list</li> </ol>		User should able to see booked bicycle in booking list	As Expected	Pass
TC14	Check Every booked Bicycle show in booking list	<ol style="list-style-type: none"> <li>1. <a href="http://localhost/NSTU-Bike-Rental-System/bk.php">http://localhost/NSTU-Bike-Rental-System/bk.php</a></li> <li>2. Rider see the bicycle in booking list</li> </ol>		User should able to see all booked bicycle in booking list	As Expected	Pass
TC15	Click on Cancel Button for cancel a book from the booking page's list	<ol style="list-style-type: none"> <li>1. <a href="http://localhost/NSTU-Bike-Rental-System/bk.php">http://localhost/NSTU-Bike-Rental-System/bk.php</a></li> <li>2. Click on Cancel Button for specific booked bicycle in the booking list</li> </ol>		User must able to remove or cancel booking before booking time	As Expected	Pass
TC16	Test sing out when click on logout button	<ol style="list-style-type: none"> <li>1. Click on logout menu</li> </ol>		Rider profile access must be close	As Expected	Pass

### Non-functional test case execution

ID	Test Scenario	Test Steps	Test Data	Expected Results	Actual Results	Pass/Fail
TC17	Check it takes the expected time for a user to log in with the correct credentials.	<ol style="list-style-type: none"> <li>Go to site <a href="http://localhost/NSTU-Bike-Rental-System/login.php">http://localhost/NSTU-Bike-Rental-System/login.php</a></li> <li>Enter Username</li> <li>Enter Password</li> </ol>	Username:  shekh Password: shekh	User should able to access profile within short time.	As Expected	Pass
TC18	Check page loading speed is acceptable.	<ol style="list-style-type: none"> <li>Go to site every pages</li> </ol>		Every pages load must be within short time	As Expected	Pass
TC19	Check an application should be available at different battery conditions, including charging.	<ol style="list-style-type: none"> <li>Go to site <a href="http://localhost/NSTU-Bike-Rental-System/login.php">http://localhost/NSTU-Bike-Rental-System/login.php</a></li> </ol>		User should see that application should be available at different battery conditions.	As Expected	Pass
TC20	Check a user should be able to log in from different devices simultaneously.	<ol style="list-style-type: none"> <li>Go to site <a href="http://localhost/NSTU-Bike-Rental-System/login.php">http://localhost/NSTU-Bike-Rental-System/login.php</a></li> </ol>		Rider must be able to access profile from any devices	As Expected	Pass
TC21	Check the information from different devices should synchronize momentarily.	<ol style="list-style-type: none"> <li>Go to site <a href="http://localhost/NSTU-Bike-Rental-System/login.php">http://localhost/NSTU-Bike-Rental-System/login.php</a></li> <li>Username</li> <li>Password</li> </ol>	Username: Shekh Password: shekh	User should able to log in from different devices simultaneously.	As Expected	Pass
TC22	Check the application should not cause device heating or battery draining.	<ol style="list-style-type: none"> <li>Go to site <a href="http://localhost/NSTU-Bike-Rental-System/login.php">http://localhost/NSTU-Bike-Rental-System/login.php</a></li> </ol>		User should be able to use the system friendly without any battery problem.	As Expected	Pass
